PROFESSIONAL SUMMARY

As a dedicated and enthusiastic full-stack developer with an MCA, I aim to leverage my understanding of modern web technologies and software development principles to contribute to innovative projects. I aim to apply my front-end and back-end development skills, foster collaborative teamwork, and expand my technical knowledge. I am seeking an entry-level position where I can grow professionally and contribute to the organization's success

SKILLS

- **Programming Languages:** JavaScript, Python
- **Web Development:** React, Bootstrap, HTML, CSS, Django
- **Databases:** MySQL, DBMS

INTERNSHIP

Python Full stack Developer, Slash Mark *Feb 2023 - Aug 2023*

- ***Developing and Integrating Features****: Build and maintain front-end interfaces with tools like HTML, CSS, JavaScript, and React, and connect them to back-end APIs using Django or Flask.*
- ***Database Management****: Design, query, and optimize databases MySQL for efficient data handling and storage.*
- ***API Development****: Create and integrate RESTful APIs for seamless system communication.*
- ***Collaboration and Deployment****: Work in a team to deploy applications in version control using Git.*
